

THERMOMIX MAG

Magnetic sludge remover and chemical loader

Sludge remover, chemical loader and purge on heating systems with magnetic system.

Its shape, with a special stainless steel cartridge inside, allows the deposition of sludges, oxides and sediments on the bottom of the system. Through the magnet and the bottom drain the solids elimination and emptying system operation is easy and convenient.

Available insulation (optional) to make Thermomix Mag thermoset.

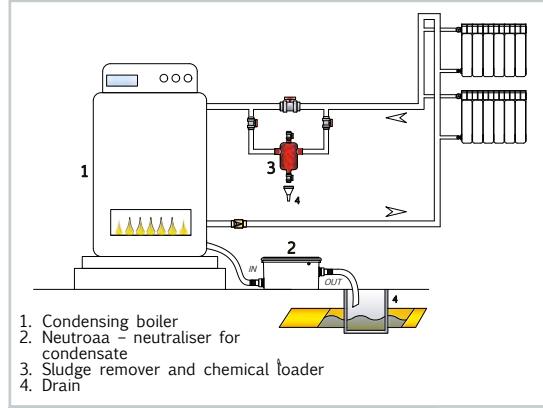

MAX working pressure: 8 BAR

Working Temperature: -10, + 110

CODE	MODEL	DIMENSIONS in mm	
		A	B
THMGØØØ1	THERMOMIX MAG/1" F	325	276
THMGØØ14	THERMOMIX MAG/1" ¼" F	364	324
THMGØØ12	THERMOMIX MAG/ 1" ½ F	364	324
THMGØØØ2	THERMOMIX MAG/2" F	407	381
THMGDØ65	THERMOMIX MAG DN65	704	434
THMGDØ80	THERMOMIX MAG DN80	784	473
THMGD1ØØ	THERMOMIX MAG DN100	835	527
THMGD125	THERMOMIX MAG DN125	884	625
THMGD150	THERMOMIX MAG DN150	884	676

ACCESSORIES AND INSULATION OPTIONAL

CODE	MODEL
EUCICLRC	KIT INST. MIX 1"
